

Backend Developer Role Description

Nexora Labs · Role Description · Engineering · Version 1.0

Document ID	ROLE-BACKEND-101	Version	1.0
Category	Role Description	Effective date	2026-04-20
Owner	Engineering	Review date	2027-04-20
Applies to	Backend Developer	Status	Active

1. Role Purpose

- 1.1 This document describes the responsibilities and onboarding expectations of the Backend Developer at Nexora Labs.
- 1.2 The purpose of this role description is to set out what a new Backend Developer completes during onboarding.

2. Core Responsibilities

- 2.1 Backend Developers must design APIs according to the Nexora API guidelines.
- 2.2 Backend Developers must write automated tests for every new endpoint.
- 2.3 Backend Developers should document service ownership in the service catalogue.

3. Onboarding Requirements

- 3.1 Backend Developers must complete the Secure Coding assessment before the end of their first thirty days.
- 3.2 Backend Developers must complete the Database Migration module within fourteen calendar days of their joining date.
- 3.3 Backend Developers may join the architecture guild after their probation.

4. Code and Production Access

- 4.1 Every pull request by a Backend Developer must be approved by at least two reviewers before merge.

Deliberate conflict with PRC-ENG-009 §3.1 (at least one reviewer). Present so that precedence resolution and contradiction detection have something to find.
- 4.2 Backend Developers must not run migrations against production without a DevOps Engineer present.
